## An International Journal for Chemical Biology in Health and Disease

### CONTENTS VOLUME 186, Nos. 1 & 2, September 1998

#### MYOCARDIAL ISCHEMIA AND REPERFUSION

Michael V. Cohen, James M. Downey, Ricardo J. Gelpi and Ján Slezák, guest editors

##### Preface

1

- T. Miki, M.V. Cohen and J.M. Downey: Opioid receptor contributes to ischemic preconditioning through protein kinase C activation in rabbits 3-12

- J. Munch-Ellingsen, J.E. Løkebø, E. Bugge and Kirsti Ytrehus: Equal reduction in infarct size by ethylisopropyl-amiloride pretreatment and ischemic preconditioning in the *in situ* rabbit heart 13-18

- M.W. Hashimi, J.D. Thornton, J.M. Downey and M.V. Cohen: Loss of myocardial protection from ischemic preconditioning following chronic exposure to R(-)-N<sup>o</sup>-(2-phenylisopropyl)adenosine is related to defect at the adenosine A<sub>1</sub> receptor 19-25

- P. Ferdinand, C. Csonka, T. Csont, Z. Szilvássy and L. Dux: Rapid pacing-induced preconditioning is recaptured by farnesol treatment in hearts of cholesterol-fed rats: Role of polypropenyl derivatives and nitric oxide 27-34

- M. Itoya, J.D. Morrison and H.F. Downey: Effect of ethanol on myocardial infarct size in a canine model of coronary artery occlusion-reperfusion 35-41

- E. Deindl and W. Schaper: Gene expression after short periods of coronary occlusion 43-51

- T. Ravingerova, J.E. Løkebø, J. Munch-Ellingsen, R. Sundset, P. Tande and K. Ytrehus: Mechanism of hypoxic preconditioning in guinea pig papillary muscles 53-60

- M.S. Sumeray and D.M. Yellon: Characterisation and validation of a new murine model of global ischaemia-reperfusion injury 61-68

- L. Xi, M.L. Hess and R.C. Kukreja: Ischemic preconditioning in isolated perfused mouse heart: Reduction in infarct size without improvement of post-ischemic ventricular function 69-77

- A.P. Zumino, G. Baiardi, O.F. Schanne and E.R. Petrich: Differential electrophysiologic effects of global and regional ischemia and reperfusion in perfused rat hearts. Effects of Mg<sup>2+</sup> concentration 79-86

- A. Beręsewicz, E. Czarnowska and M. Maćzewska: Ischemic preconditioning and superoxide dismutase protect against endothelial dysfunction and endothelium glycocalyx disruption in the posts ischemic guinea-pig hearts 87-97

- S. Persad, V. Panagia and N.S. Dhalla: Role of H<sub>2</sub>O<sub>2</sub> in changing β-adrenoceptor and adenylyl cyclase in ischemia-reperfused hearts 99-106

- N. Vrbjar, S. Zöllner, R.F. Haseloff, M. Pisarek and I.E. Blasig: PBN spin trapping of free radicals in the reperfusion-injured heart. Limitations for pharmacological investigations 107-115

- C. Morales, M. Rodríguez, O. Scapin and R.J. Gelpi: Comparison of the effects of ACE inhibition with those of Angiotensin II receptor antagonism on systolic and diastolic myocardial stunning in isolated rabbit heart 117-121

- S.M. Mosca, R.J. Gelpi, J. Milei, G.F. Alonso and H.E. Cingolani: Is stunning prevented by ischemic preconditioning? 123-129

- D.E. Vatner and S.F. Vatner: Physiological and biochemical adrenergic regulation of the stunned myocardium 131-137

- N. Maulik, T. Yoshida, R.M. Engelman, D. Deaton, J.E. Flack III, J.A. Rousou and D.K. Das: Ischemic preconditioning attenuates apoptotic cell death associated with ischemia/reperfusion 139-145

- A. Elsässer, M. Schlepper, R. Zimmermann, K.-D. Müller, R. Strasser, W.-P. Klövekorn and J. Schaper: The extracellular matrix in hibernating myocardium – a significant factor causing structural defects and cardiac dysfunction 147-158

- J. Ausma, F. Thoné, G.D. Dispersion, W. Flameng, J.L. Vanoverschelde, F.C.S. Ramaekers and M. Borgers: Dedifferentiated cardiomyocytes from chronic hibernating myocardium are ischemia-tolerant 159-168

- A. Lochner, S. Genade, E. Tromp, L. Opie, J. Moolman, S. Thomas and T. Podzuweit: Role of cyclic nucleotide phosphodiesterases in ischemic preconditioning 169-175

- D.J. Hearse: Myocardial protection during ischemia and reperfusion 177-184

- G. Heusch and R. Schulz: Features of short-term myocardial hibernation 185-193

- R. Ferrari, F. Ferrari, M. Benigno, P. Pepi and O. Visioli: Hibernating myocardium: Its pathophysiology and clinical role 195-199

- R. Domenech and P. Macho: Non-ischemic myocardial preconditioning 201-203
